BRUCE RENTON
Business Development

Bruce Renton is a business development specialist with a committed focus on understanding the operational and financial challenges of a company and connecting them with a service that provides the best solution possible. Working closely with Kluane Partners, Bruce's primary mission is to assist businesses that have a great value proposition, overcome their financial hurdles by connecting them to the highest standard of operational excellence and further positioning them for greater success.

Backed by more than 30 years of various industry experience, Jim joined Hewlett Packard Enterprises as a Technical Sales Representative in 1983. He was then recruited by Metal Supermarkets in 1995 where he focused on Sales and Customer Service – managing business to business metal supply centre. In 2001 Bruce became an Associate at Champions in the Workplace which specialized in developing the people skills of front-line managers. Seeking new opportunities to provide business with greater opportunities to increase sales and profitability by generating quality leads and providing local representation through an expansive business development network of professionals, Bruce started Resolve Business Development in 2010.

Bruce received his Bachelor of Science in Geophysics from the University of Toronto Mississauga in 1982. He has since supplemented his education with his involvement in two oceanographic cruises that include Arctic mapping- Baffin Bay, Davis Strait and Lancaster Sound (Northwest Passage) in Canadian Arctic in 1976 and Ocean bottom seismic: Orphan Knoll and Flemish Cap, off coast of Newfoundland, Canada in 1977.
