E: Arthur.Poghosyan@klupart.com

With an impressive career that spans more than 25 years of global and national experience, Arthur is a recognized leader in project controls, finance & accounting as well as inventory and supply chain management. He has an impressive track record of overseeing and coordinating multi-million-dollar transactions, processing periodic management reporting and financial and cost performance analysis. Through his strategic insights and detailed approach, Arthur assists organizations in achieving the highest standards while helping them realize immediate and long-term goals.

Arthur's career started as an Engineer where he held a variety of roles with increased responsibilities before transitioning to accounting. In 2000 he acted as Chief Accountant at Yerevanshin, JSC where he managed wholesaler financial records, balance sheets, and generated weekly on cash and demand drafts. In 2004 he joined International Organization for Migration as a Senior Accountant, assisting the Project Managers with monthly financial reporting, EV review, incurred to date (ITD) and forecast at completion cost analysis. In 2009, after moving to Canada, Arthur was recruited by Two Amigos Alero Moving and Storage, as their Accounting Manager before joining Weatherford Canada as the Canada Region Inventory Coordinator, Cost Analyst. In 2013 Arthur joined Honeywell Process Solutions as a Project Control Specialist and then moved on to be a Senior Accountant for Westleaf and Modus Structures. Recognized for his impressive experience in dealing with cross-functional departments and providing strategic guidance to resolve a myriad of issues, Arthur joined Kluane Partners in 2019 as a Principal Partner.

Arthur successfully majored in Chemical Engineering at the State Engineering University of Armenia in 1994. He then went on to complete his Business and Management degree from the American University of Armenia in 1998. In 2004 he completed his MBA from the International Academy of Ecology and Life Protection Sciences in St Petersburg, Russia. He has since supplemented his education with the successful completion of industry related courses including Six Sigma Fundamentals Training and Primavera P6 Professional Fundamentals.
